A Note to Parents

DK READERS is a compelling program for beginning readers, designed in conjunction with leading literacy experts, including Dr. Linda Gambrell, Distinguished Professor of Education at Clemson University. Dr. Gambrell has served as President of the National Reading Conference, the College Reading Association, and the International Reading Association.

Beautiful illustrations and superb full-color photographs combine with engaging, easy-to-read stories to offer a fresh approach to each subject in the series. Each DK READER is guaranteed to capture a child's interest while developing his or her reading skills, general knowledge, and love of reading.

The five levels of DK READERS are aimed at different reading abilities, enabling you to choose the books that are exactly right for your child:

Pre-level 1: Learning to read

Level 1: Beginning to read

Level 2: Beginning to read alone

Level 3: Reading alone

Level 4: Proficient readers

The “normal” age at which a child begins to read can be anywhere from three to eight years old. Adult participation through the lower levels is very helpful for providing encouragement, discussing storylines, and sounding out unfamiliar words.

No matter which level you select, you can be sure that you are helping your child learn to read, then read to learn!

Fishy Tales

DK Publishing

Take a
swim in the
blue sea.

snorkel

clam

Here is a
coral reef.

coral

What do
you see?

coral

fish

eye

fin

fish

spot

Small fish
swim in
and out of
the coral.

The turtles play
in the sea.

shell

turtles

flipper

sea horses

The sea horses
sway to and fro.

arm

starfish

An underwater photograph showing a sandy sea floor with several starfish. One large, dark starfish is in the foreground on the left. Another large, dark starfish is in the middle ground. In the background, there are several smaller, lighter-colored starfish. The water is clear and blue.

Starfish crawl
on the sea floor.

tentacles

jellyfish

Jellyfish
float up
and down
in the sea.

fin

tail

Here comes a shark.
It looks for food.

sharks

mouth

octopuses

An octopus
shoots off
to hide.

claw

crabs

leg

Crabs hide in
the coral and
in big shells.

shell

A ray hides on
the sea floor.

rays
